AUSCYCLING CLUB FORUM SUMMARY

AusCycling Club Forum #1 Summary

Thank you to those who attended the first Club Forum of 2023, where we shared an update on public liability insurance and the challenges we face with increasing premiums.

We had a great turnout with over 150 Club, State and Territory Advisory Council, Board and Staff representatives logging in to be part of the conversation. And my sense is that if we get the Club email contacts updated and have the right topics up for discussion (we're going to be guided by you here), participation will grow throughout the year and the forums will be a key part of our joint decision making, which is exciting.

But before we can do that, acknowledging that there can be issues with generic email address and Mail Chimp (our EDM platform), it appears that there are a lot of outdated Club contacts sitting in Tidy HQ. So, over the next four weeks, we'll be working with the State Operations Managers and Membership team to ensure that we have not only the correct 'Official Club Contact', but also the correct Club President and Secretary contact details.

We're committed to enhancing communication with Clubs and that starts with having the right contact details.

In this post-Forum update, we've included:

- A link to the Club Forum meeting recording.
- A copy of the deck that was presented.
- A summary of the information gathered to shape future Club Forums.
- The questions posed with respect to the AC Insurance Program, along with responses from AusCycling and Marsh, our Insurance Broker.

And finally, please remember that the AusCycling Annual General Meeting is scheduled for the 13th of May. Clubs have already been sent information pertaining to the Call for Motions and Elected Director positions. Please be reminded that the deadline to submit Director Nominations and Motions is Friday 14th April. Any questions relating to the AGM can be emailed to AGM@auscycling.org.au.

For more information, please refer to the website – [HERE](#).

I look forward to connecting again soon. As I mentioned in the Forum, we've also launched our monthly eUpdate 'From the Chair and CEO', so if you have any questions or suggestions for how we can enhance our connection and communication, please either email me at ceo@auscycling.org.au or speak to your State Operations Manager.

Marne Fechner
Chief Executive

Club Forum #1 Recording and Deck

The link to the Forum from Tuesday 28 March can be found [HERE](#).

The deck that was presented by AusCycling and Marsh can be found [HERE](#).

Insurance Questions

We have consolidated the questions posed in the Teams Chat and through the Menti tool. The questions and responses from AusCycling and Marsh, our Insurance Broker can be found [HERE](#).

Club Insights

As part of Forum #1, we asked participants to provide input into two key areas:

- The most critical issues facing your Club.
- Topics you'd like to see covered at future Club Forums.

We used a tool called Menti to collect and share back the information live. A summary of that input can be found [HERE](#), and will be used to determine the discussion topics for future Club Forums.

Calling for Expressions of Interest to be part of the Club Insurance Advisory Group

The current challenges we face with respect to the AusCycling insurance program impacts all of us.

12 months ago, the AusCycling Finance Audit and Risk (FAR) Committee established the Insurance Workgroup. The group consists of FAR members and insurance specialists and was established to inform our approach to the AusCycling insurance program. The first

The next piece of work is more comprehensive and will investigate the member value proposition; the structure of the insurance program; managing risk and optimizing data and insights (with respect to the insurance program).

To support and inform the work of the AusCycling Insurance Workgroup, and the recommendations that are ultimately put forward to the AusCycling Board, we are establishing a Club Advisory Group to ensure the voice of the Clubs is ever-present as we consider how to create not only a sustainable insurance program, but one that is valued by Clubs and members alike.

Purpose / Role

- The Club Advisory Group will be a 'sounding board / reference group' for the AusCycling Insurance Workgroup.

Commitment / Term

- We anticipate an initial term of six months with the option to extend pending the progress of the AusCycling Insurance Workgroup.
- The detailed project plan is still to be finalised; however, as a guide we anticipate one, two where required, meeting each month.

Group composition

- 8 to 10 members.
- Members of the advisory group will be drawn from AusCycling Clubs and will represent the various disciplines – BMX, Mountain Bike, Road, and Track.
- Insurance, legal, risk and compliance skills will be prioritised in the appointment process, as will ensuring gender diversity within the group.

Applications Close

- Monday 17 April, 5pm AEST.

Confirm Appointments

- by Monday 24 April, 5pm AEST.

How to Apply

- Please email a 1-page CV and a short cover email highlighting your experience in either insurance, legal, risk, compliance or similar to ceo@auscycling.org.au.

Reminder: 2023 Club Forums

In case you missed the first CEO and Chair Update, the dates for the remaining 2023 Club Forums are included below – please pop them in your diaries now and a registration link will be provided closer to the event.
